

**HAVE YOUR SAY!** Your Local Involvement Network (LINK) gives you the opportunity to influence your local health and social care services and it has been set up to make sure that you are getting the services you need. LINK Devon can implement small changes and influence big changes but not without hearing about your experiences of health and social services and your ideas for improvements or changes. Have you used any of the following services in the last 12 months? If so, please comment on the standard of service(s) by filling in the questionnaire below. **It's free to return and will only take a few minutes of your time. Thank you for making a difference.**
